

Glyn-Taff Solar

Welcome to the public consultation for the proposed solar farm at the land east of Glyn-Taff

Renantis develops, designs, builds and manages power plants from renewable sources, with an installed capacity of more than 1.4 GW in the UK, Italy, USA, Spain, France, Norway and Sweden.

Renantis would like to take this opportunity to thank the community for their attendance of the public consultation event and for providing feedback on the Proposed Development online. This event is being held to inform the public on the proposed solar farm development.
